AMAL J
MERN Stack Developer

📞 +91 7306129867   @ amaljayan272@gmail.com   🔗 linkedin.com/in/amalj272   📍 Punalur, Kerala

SUMMARY

Passionate and result-driven MEARN stack developer with hands-on experience in designing and implementing web applications. Proficient in using the power of MongoDB, Express.js, React, and Node.js to create scalable and responsive solutions. Interested in collaborating with the teams to deliver innovative solutions as per the objectives. Flexible and committed to leveraging the best of my abilities to achieve quality results.

EXPERIENCE

MEARN Full Stack Developer
Luminar Technolab
📅 06/2024 - 12/2024   📍 Kakkanad, Kerala

A technology company focused on developing innovative software solutions.

- Developed a full-stack web application using the MERN stack, leading to enhanced user engagement through improved UI/UX design and responsiveness.
- Implemented RESTful APIs facilitating seamless communication between the frontend and backend, supporting efficient CRUD operations.
- Managed end-to-end development processes, including API integration, state management, and deployment, resulting in a notable reduction in bug occurrences through rigorous testing and code optimization.
- Adhered to best coding practices such as modular coding and version control, enhancing maintainability and team collaboration.

INTERNSHIP

Programming in Python
ReverTech - Giving wings to your dreams
📅 12/2022 - 01/2023   📍 Kochi, Kerala

Dedicated to crafting next-generation software solutions that transform businesses.

- Automated data workflows and task execution using Python, enhancing process efficiency and reliability.
- Collaborated on backend development using Python frameworks like Flask/Django.
- Gained hands-on experience with data handling, API integration, and object-oriented programming.

EDUCATION

BTech in Computer Science
College of Engineering Perumon
📅 10/2020 - 11/2024   📍 Punalur, Kerala

CGPA
7.73 / 10
